# An Updated Look for the Digital SAT® Dashboard

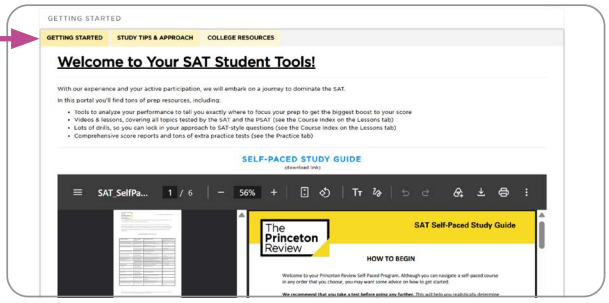

## Everything students need, all in one place.

The new **Everything You Need to Know** panel on the homepage brings student tools and resources together, instead of spreading them across the dashboard.

**Getting Started** now offers a detailed guide to help students structure their self-study.

**Resources** are now located with other tips and tools for getting the most out of the program.

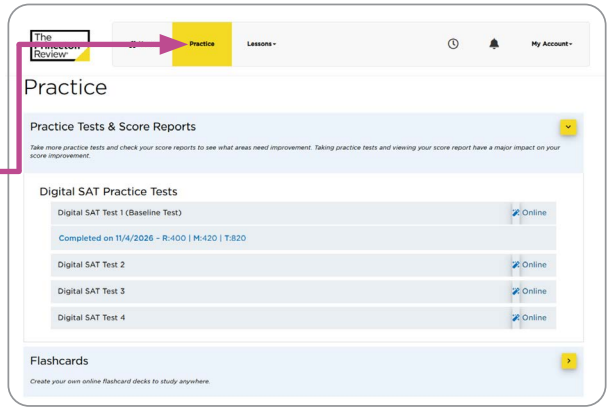

## Practice tests and results, side by side

Practice exams live under **Practice**, with score reports built right in. Results are available immediately after a test, on the same tab—no extra clicks needed.

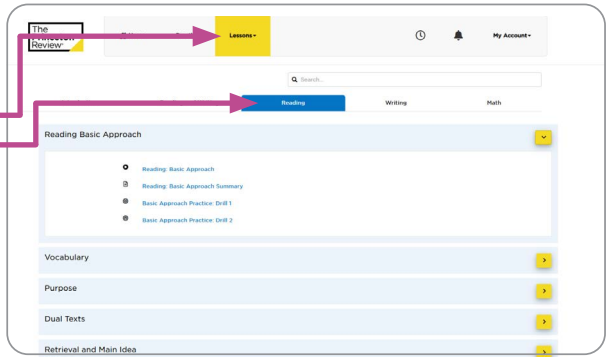

Students still have the same four full-length practice tests.

## Lessons organized by subject

The **Lessons** tab now uses **subject tabs**, so students can jump straight to what they want to study with far less scrolling.

The lessons themselves are unchanged, so all progress carries over.

## The bottom line

Same trusted content, same progress, and a dashboard that guides students more intuitively. We can't wait for students to explore the new experience!
