With the SAT and PSAT<sup>®</sup> going fully digital, it is essential for students, parents, and school districts to be prepared for the changes to come. The Princeton Review<sup>®</sup> and Tutor.com are here to help you understand what's changing and what's staying the same—and to provide gold-standard test prep along the way!

The digital SAT will continue to measure the skills and knowledge that research shows are crucial to college readiness and success and at the same level of rigor as the current SAT.
