

Students “Get It” With Tutor.com™

Our tutors specialize in providing:

- Math Support (Algebra, Calculus, Statistics & More)
- Science Support
- Real-time Writing Help
- GED & Standardized Test Preparation
- Career Assistance

One-third of first-year college students are not ready for college-level work.* Get them on the right track with on demand, expert help from Tutor.com.

As the nation’s highest rated online tutoring service, our personalized approach effectively supports students struggling to meet the core basic requirements and beyond. Tutor.com has helped millions of students overcome their academic challenges, improve their grades and get on track to master everything from college-level writing and research to algebra and statistics.

We empower students to get help when they need it - 24/7.

Our tutors make sure a student has mastered the concept at hand and leaves them ready to solve the next problem on their own.

Students develop the confidence and skills they’ll need for a successful college experience.

The best result: your school effectively manages remedial support and retains more students.

Live Tutor™ Online Tutoring

In our Online Classroom, students can chat one-on-one with a LIVE tutor, review problems on an interactive whiteboard and share relevant websites and resources. They can also save, replay, email or print their sessions to refer back to later.

ProofPoint™ Real-Time Writing Center

Students can collaborate with a tutor in real time on reports, essays and papers. No more waiting 24 hours or more for a marked-up copy. Our high quality support provides students at any level with improved writing skills.

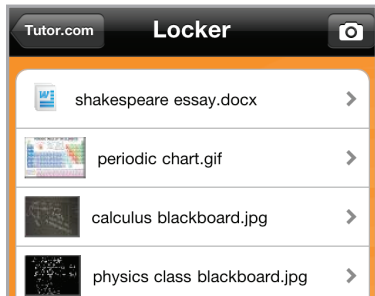

SkillsCenter™ Resource Library

College students can also access this valuable tool. In addition to the large volume of academic resources available, they’re also able to search local job listings, get resume help or even access GED prep resources.

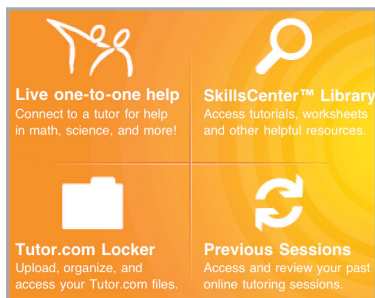

Call 1-800-411-1970 or email contactsales@tutor.com to get the solution that’s right for your school!

Tutor.com provides a turn-key solution to help your college or university successfully meet the educational needs of your students.

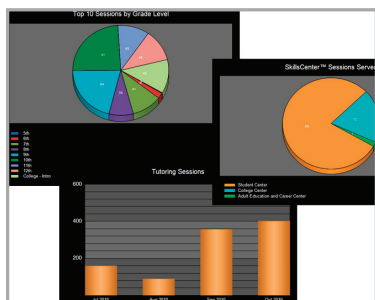

Personalized Student Experience

- Students can create personal accounts to store files or assignments in their own digital locker, connect to their favorite tutors and replay previous sessions
- Help is provided across 16 core subjects, including algebra, trigonometry, chemistry, calculus, statistics, physics and essay writing

Easy Access

- Expert tutors are available 24/7 from Internet-enabled computers or mobile devices*
- Tutor.com To Go™, the only mobile tutoring app, extends LIVE support to mobile users, instantly connecting them to help wherever they are
- Add the Tutor.com link to your CMS/LMS, so students will have easy access to this valuable service

Quality Customer Support

- Dedicated Client Services Managers will help you launch your program and highlight effective ways to promote Tutor.com to your students
- Our robust Client Resources Center offers FREE promotional materials to help spread the word across campus
- Customized reports provide monthly statistics, student ratings and comments that help track the success of your program

Tutor.com provides innovative, high-quality learning solutions that help you meet your goals.
