

Serves English Language Learner (ELL) Students

Tutor.com tutors adapt their teaching strategies based on ELL students' language skills and communication abilities. Our goal is to empower confidence and comprehension using individualized support and leveraging the diverse tools within our online classroom. Tutors will make necessary instructional adjustments to ensure all ELL students receive the best academic support possible!

1

Focused communication

Expert tutors are available via text-chat and two-way voice. They adapt their instruction to match students' language proficiency, and they communicate slowly and clearly.

6

Pacing awareness

Tutors ensure students are ready to progress before moving forward in a lesson, and they adjust pacing to accommodate individual learner needs.

2

Concept breakdown

Complex concepts are broken down into manageable steps using methods like chunking or checklists to facilitate understanding.

7

Adaptive approach

Tutors are flexible in their instruction style and willing to adjust their approach if a student has difficulty with comprehension.

3

Clarity in directions

Tutors help students decode directions, utilizing visual demonstrations or sentence starters for better comprehension.

8

Simplified materials

Tutors utilize a variety of tools in the online classroom to supplement verbal and written explanations with visual representations that further aid comprehension.

4

Terminology assistance

Whenever tutors introduce new terms, they assess learner understanding. Any unknown terms are explained using examples, pictures, or concise explanations.

9

Guided engagement

Tutors are dedicated to working with students, but they do not do the work for students. If an ELL student needs support to develop independent understanding, our tutors will provide that for them.

5

Regular check-ins

Tutors frequently check for understanding and encourage students to demonstrate their grasp of the material on an ongoing basis.

10

Positive reinforcement

Tutors offer positive support and encouragement for ELL students, celebrating their work as they achieve understanding during tutoring sessions.
