Help students gain confidence and improve their grades with **Tutor.com's 24/7 Online, On-Demand Support**

Our tutors are among the most carefully vetted in the industry for their pedagogical and subject-matter expertise. Your students can access expert tutoring in a variety of subjects to get help with homework problems, preparing for tests, writing essays, and more.

Equalize & Expand Educational Opportunities

Your students can go online, enter the subject they need help with, and be connected with an online tutor in under a minute. This instant access helps level the playing field and give students the assistance they need in more than 250 subjects.

Convenient Access

Students can connect with a tutor anytime, anywhere they have access to the internet—at home, at school, or on their phone. No downloads or plug-ins are required.

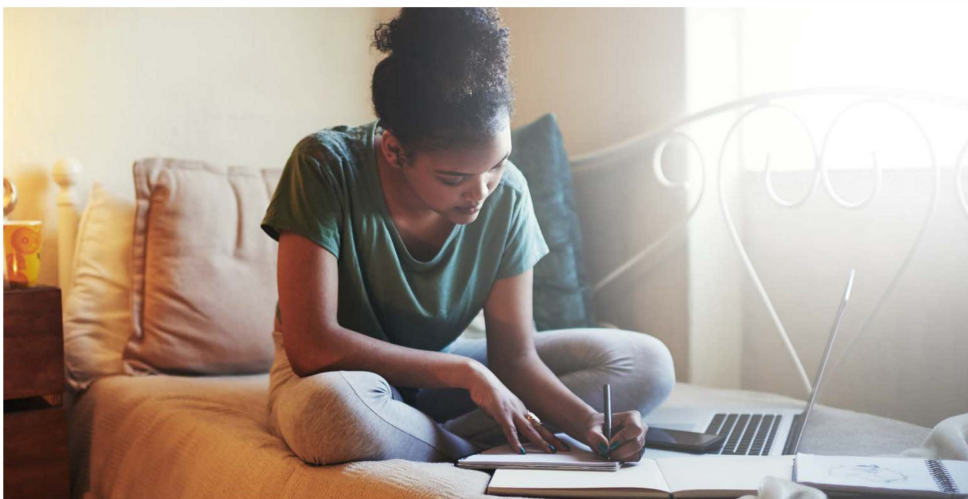

Customer Care

Setting up Tutor.com is easy with LMS integration. Our team is here to support you through implementation and beyond, including providing regular training for your staff.

Predictive Insights

We provide our partners with access to their students' data and progress. Our Predictive Insights provide early, actionable data that helps accelerate intervention by identifying which may be struggling to master key content.

"We decided on Tutor.com to give all of our students access to one-on-one help, 24 hours a day.

Many of our students have commitments that make attending traditional after school tutoring difficult. [Tutor.com] meets our students where they are—on their phone, laptop, at 10 o'clock at night, or on the bus from the game—and gives them personalized, live help. The service has been unbelievably popular with our students and over 97% of them recommend this to their friends."
