

Measurement: Length and Weight

Instructions: Answer the questions about the length and weight of various items.

1. What is the length of this candy cane (to the nearest half inch)?

- a. 4 inches
b. $4\frac{1}{2}$ inches
c. 5 inches
d. $5\frac{1}{2}$ inches
2. How much does this candy weigh? Each line represents three pounds.

- a. 0 pounds
b. 1 pound
c. 2 pounds
d. 3 pounds

3. Candies are sold by the number of ounces. A bag of candy is 2 pounds. How many ounces is this?
- a. 2 ounces
 - b. 8 ounces
 - c. 16 ounces
 - d. 32 ounces
4. Tessa loves to hike, and this is the kind of shoe she has to wear when she's hiking.

Use a centimeter ruler to find the length of the shoe. (Hint: Because the line below the shoe is the same length as the shoe, you can measure the line to find out how long the shoe is!)

5. A football field is 100 yards long. How many feet long is the football field?
